I am a fifth-year student in Media technology, which is an education with an emphasis on technology, where the foundation is a solid foundation in mathematics, physics, programming and information technology. I am specialized in areas such as full stack web development, information visualization, user interface and interaction between humans and technology. I am currently doing my Master Thesis at Filmgate in Gothenburg within front-end development and information visualization.

🎓 Education

2016-Present **MSc. in Media technology and Engineering, Linköping University**

2019-2020 **Télécom SudParis, Computer Science**
Exchange year in France

👜 Professional Experience

Summer of 2019 **Warehouse work, Biltema Logistics,**
Worked as a terminal worker.

Summer of 2018 **Full stack web developer, Jayway by Devoteam,**
Worked with maintenance of internal web systems for project and resource planning, developed in Ruby on Rails.

Summer of 2017 **Waitress, Wapnö,**
Worked as a waitress serving breakfasts and dinners.

2013-2016 **Shop assistant, Östras Stenugnsbageri,**
Worked weekends, summers and holidays as a shop assistant and cashier at a bakery, as well as with warehouse work.

2012-2016 **Gymnastic Leader, Söndrums Gymnastik- och Idrottsförening,**
Worked as a gymnastics leader for children between the ages 3-6 once a week.

👥 Volunteer Experience

2020 **Web developer, Sofia's Sömnad**
Created the website sofiassomnad.se, using React.js.

2015, 2017 **Conference assistant, Øredev Developer Conference**
Worked in the reception, wardrobe and at the information desk.
